Plans to Rebuild Falcon Compressor Station

Enterprise Products

New Falcon Compressor Station

**Rebuild Falcon Compressor Station
on previous location.**

Foundation work in progress.

State land, not under BLM jurisdiction.

Enterprise Products

New Falcon Compressor Station

6 compressors; configuration and capacity similar to the facility that burned in 2011

Enterprise Products

New Falcon Compressor Station

Emissions would be \leq those of the previous facility, with possible emissions reductions from cleaner engines and/or electric equipment.

Emissions accounted for in field-wide modeling and permitted by Wyoming Department of Environmental Quality – Air Quality Division .

Enterprise Products

New Falcon Compressor Station

Would require reconfiguring tie-ins for about 9 well pads in DA-3 and DA-4 where higher or lower pressures are needed.
